Office Action Summary	Application No. 10/764,085	Applicant(s) PARK, JOON	
	Examiner Peter T. deVore	Art Unit 3751	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 09 January 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 18-38 is/are pending in the application.
- 4a) Of the above claim(s) 20-38 is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 18 and 19 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☒ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
 Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
 Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Species 7 in the reply filed on 1/9/06 is acknowledged. The Examiner acknowledges that Figure 16 illustrates the resultant adhesive filled slot from the embodiments of both Species 6 and 7, instead of just Species 7 as previously erroneously identified in the restriction requirement. However, this does not render Species 6 and 7 patentably indistinct, and so claims 20, 21, 34, and 35 which do not read on Species 7 (as embodied in Figures 14 and 15) are withdrawn from consideration as being drawn to non-elected Species. Furthermore, the Examiner acknowledges that claim 18 reads on Species 8 and 9 as well as Species 7 although the restriction requirement erroneously identified claim 18 as reading only on Species 7. However, this does not render Species 7-9 patentably indistinct, and so claims 23, 24, 25, and 28 are withdrawn from consideration as being drawn to non-elected Species. Regarding claim 22, despite Applicant's assertion that the claim reads on Species 7, there is no structure in the embodiment of Species 7 corresponding to the claimed vanes, and so claims 22, 36, and 37 are withdrawn from consideration as being drawn to non-elected Species. Furthermore, claims 30-33 recite features specific to Species 9 only, and are withdrawn from consideration as being drawn to a non-elected Species. An examination on the merits of claims 18 and 19 follows.

Specification

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: the "tenon receiving mortise" language of claim 19 does not appear in the specification".

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 18 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 18 recites the limitation "said first and second ends" in line 8. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 18 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Moore.

The Moore reference discloses an apparatus which is capable of applying a layer of fluid onto a workpiece moving relative to the apparatus for use with a fluid container comprising a nozzle N1 comprising a cap mounted to a fluid container M1 and defining an axis (see Figs. 7-11), two oppositely disposed orifices 109 normal to the axis (see Fig. 12) and between the the first and second ends of the nozzle (see Fig. 10), an outer wall comprised of projections (a projection proximate reference number 103 and a projection at the free end of the nozzle, see Figs. 10 and 11) and recesses (recesses formed by the passages 109 not construed as the two orifices), fluid being allowed to flow in-between the recesses and the wall of the pocket being filled to thereby define the layer of fluid. Regarding claim 19, the pockets to be filled are holes which are capable of receiving dowels as claimed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Warren, Lodige, Despins, Moshammer, Chao, Forte, and Zerebecki references disclose similar applicators.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter T. deVore whose telephone number is (571) 272-4884. The examiner can normally be reached on Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Justine Yu can be reached on (571) 272-4835. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Art Unit: 3751

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
